Mission

Kalinga University aims to be an outstanding institution for Talent Development and Knowledge Creation for a vibrant and inclusive society.

Our University

Kalinga University, Raipur is a NAAC accredited University with Grade B+ and the Only Private University in Chhattisgarh ranked in Top 101-150 Universities in NIRF Ranking 2022 and has emerged as a centre of excellence of higher education in Central India. Strategically located in the Smart City of New Raipur, this University has started carving a niche for itself in the education domain and is rising as a shining star on the horizon of quality education.

Infrastructure – Kalinga offers World Class Infrastructure and student facilities with student centric approach. Highest attention is paid to hands on learning approach and students are encouraged to come up with innovative ideas for projects and practical's. The University has more than 90 laboratories and workshops, all well equipped with the latest, state of the art apparatus and tools. Special emphasis is given to the development of communication skills through the language lab. More than 1000 computers are available for the use of the students.

Establishment – Established in 2013, this University has been able to win the confidence of over 8000 students. Meritorious students from all over the country and various foreign countries like Afghanistan, Angola, Bangladesh, Cameroon, Gambia, Ivory Coast, Kenya, Lesotho, Liberia, Malawi, Namibia, Nepal, Nigeria, Papua New Guinea, South Sudan, Swaziland, Tanzania, Uganda, Zambia, Zimbabwe, etc have chosen this University for their education and career.

Schools of Excellence – Currently the University is serving the student community through various UG and PG programs namely Engineering, Law, Pharmacy, Arts & Humanities, Science, Commerce & Management, Biotechnology, Information Technology, Library Science, Fashion Design & Interior Design.

About Faculty of **LAW**

Students under the Faculty of Law aren't just taught the tenets of the law, they are taught to lead the world. The ability to make decisions based on facts and reasoning, rather than emotions is an integral part to success in the legal world and holds even more value out of the courtroom. A great lawyer has the ability to make the hard choices putting the interests of his client first. Over the past few years, the Faculty has made significant progress in terms of restructuring of courses and syllabi, introducing new courses, experimenting with innovative techniques of imparting legal education and strengthening its clinical programme in order to give due emphasis to the expanding horizons of the legal profession.

The students have also been participating in Moot Courts and other literary and debating activities. The students of our Faculty are provided with all the necessary facilities to develop their curricular and co-curricular abilities, besides focusing on an overall personality development so as to face the challenges in the competitive world today.

TWO DAYS NATIONAL CONFERENCE

The term persons with disabilities is used to apply to all persons with disabilities including those who have long-term physical, mental, intellectual or sensory impairments which, in interaction with various attitudinal and environmental barriers, hinders their full and effective participation in society on an equal basis with others.

A person with disabilities may be regarded as a person with a disability in one society or setting, but not in another, depending on the role that the person is assumed to take in his or her community.

The perception and reality of disability also depend on the technologies, assistance and services available, as well as on cultural considerations. People with disabilities are subject to multiple deprivations with limited access to basic services, including education, employment, rehabilitation facilities etc. Widespread social stigma plays a major role in hindering their normal social and economic life. To work towards an inclusive, barrier free society by raising awareness and policy actions, there is a need to have comprehensive reliable statistics on people with disability and their socio-economic conditions. As per the Census 2011, the differently abled population in India is 26.8 million. In percentage terms, this stands at 2.21 %. There has been a marginal increase in the differently-abled population in India, with the figure rising from 21.9 million in 2001 to 26.8 million over the period of 10 years

The disability rights movement in India started only in the early 1990s. The launch of the Asian and Pacific Decade of Disabled Persons in 1993 gave a definite boost to the movement. Recently, the Department of Empowerment of Persons with Disabilities, Ministry of Social Justice and Empowerment, Government of India has published Draft National Policy for Persons with Disabilities, 2021.

The existing policy for Persons with Disabilities was adopted in 2006. Since then, a number of developments have taken place in the disability sector like signing of UNCRPD by India, enactment of the Rights of Persons with Disabilities Act, 2016 and adoption of National Education Policy, 2020.

Therefore, the new policy has been framed by the Task Force constituted by the Committee which constituted a task to draft a new policy.

CALL FOR PAPERS
