FACULTY OF TECHNOLOGY

- Department of Mechanical Engineering
- Department of Electrical Engineering
- Department of Civil Engineering
- Department of Computer Science Engineering
- Department of Mining Engineering

Faculty of Technology exemplifies the excellence in technical education. Inviting the young talent to explore the highly challenging field of engineering, it offers a unique opportunity to experience the domain through its 4-years B.Tech Degree courses and 3-years Diploma in the streams of Computer Science & Engineering, Electrical Engineering, Civil Engineering & Mechanical Engineering and 2-years M.Tech Degree courses. Empowering its graduates with the skills to facilitate their transition into their professional life, the Faculty of Engineering strives to create a steadfast workforce for the nation. As engineering and allied domains form the backbone of any progressive nation, this is an evergreen sphere for the aspirants and has innumerable employment opportunities globally. In keeping with the Kalinga University's tradition of excellence we strive to emerge amongst the country's top institutes in engineering.

ENGINEERING STREAM

Engineering is a broad work category that refers to a trade that uses science and mathematics to solve a variety of problems. Engineers work in disciplines that include mechanical, electrical, chemical, civil, computer science and environmental engineering, among others.

Due to the huge potential for infrastructure development, there is a good demand for engineers. With liberalization of the economy and opening of new companies and sectors, an engineering graduate has myriad of options to start his career.
