

## **Article Example 1 (With Format References)**

*(Heading/Title)*

### **Grow More Trees to Reduce Pollution**

*(Writer's name)*

Radhika

*(Body Paragraph 1)*

"Trees are poems the earth writes upon the sky."

Trees and plants are one of the main reasons why mankind came into existence. The importance of planting trees has been emphasized time and again. This is because of the numerous benefits they offer.

*(Body Paragraph 2)*

They make the world a better place to live in. They exhale oxygen and inhale carbon dioxide to maintain the ecological balance in the environment. They also absorb all the harmful gases and give us fresh air to breathe.

*(Body Paragraph 3)*

Trees build a sheet to protect us from the harmful ultraviolet rays. Not only this, they serve as a habitat for birds and various species of animals. This is not it. Trees help in controlling water pollution and preventing soil erosion.

*(Body Paragraph 4)*

The places inhabited by large numbers of trees are quite cooler compared to the concrete jungles that cannot do without air conditioners. Unfortunately, urbanisation is leading to clearing of forests and parks despite the numerous benefits they offer. People come here for morning walks, evening strolls, yoga sessions and laughter therapy. These also serve as a safe place for the kids to play and socialise. The only way left to preserve them and reap these benefits is by growing them at a faster rate.

*(Conclusion)*

As a Chinese proverb states, "The best time to plant a tree was 20 years ago. The second best time is now." So do your bit and make this place more beautiful.
