(57) Abstract :

The present invention is a virtual reality experience that allows users to explore and experience life in India during the time of E.M. Foster's A Passage to India. The virtual reality experience is set against the backdrop of the turbulent political and social atmosphere of the time and is designed to provide an immersive, educational, and thought-provoking experience. Users can explore the streets and markets of India, interact with various characters from the novel, and learn about the history of colonialism in India and its effects on the people. The experience includes a highly detailed 3D environment and a timeline of colonialism in India. The present invention provides a novel and engaging way for users to gain a deeper understanding of the themes and issues raised in the novel.
